CARICOF_{sculpture}

KATHLEEN CARICOF NATIONAL SCULPTORS' GUILD

BIOGRAPHY & STATEMENT:

Kathleen Caricof has gained many accolades for her stone sculpture and reliefs over the years including a 'Purchase Award' and 'Best of Show' at the 2007 Sculpture at the River Market Invitational in Little Rock, AR. Her interest in sculpture developed from a background in designing for space. Caricof earned a bachelor's degree in Industrial Design from the Art Center College of Design emphasizing in graphic design, packaging, environmental planning and transportation. Past professional experience has included being an Associate Designer for Schorer & Associates and owner of Caricof-Burns Designs, primarily in the areas of Graphic/Packaging and Interior Design. Specific projects included working with Buckminster Fuller in product design and with PPG Glass in developing a next generation of products.

'Over the years I have found that my art not only reflects my present life content and current moods, but it also, often unconsciously, and with great accuracy, predicts the unknown emotions and challenges that are about to emerge in my future.'

Caricof works in a variety of materials specific to each artwork and site; including steel, natural stone, composite stone, wood, and glass. Most recent public placements are 'Stars and Stripes' a 30ftx40ft intertwining stainless steel sculpture as the Veteran's Memorial for the War Memorial Stadium in Little Rock, AR. Additional public art placements include for the cities of Burbank, CA; Broomfield, CO; Cerritos, CA; Greeley, CO and Long Beach, CA. Multiple installations by Caricof are found on the campus of the University of Denver, each achieved in coordination with an architectural design team and carved on-site. She has also placed numerous large-scale sculptures in parks and universities around the country. Her current project is a multi-faceted public art installation with the National Sculptors' Guild for the Coronado Yacht Club entry.

'It is my intention to design for a purpose, bringing emotions into design to make ideas grow, work collectively, translate concepts into a vision, vision into reality.'

For more than 20 years, Caricof has carved with sculptors from around the world as an instructor at the MARBLE/marble Institute of Colorado. She also teaches at the Art Students League in Denver. Since 1996 she has been a member of the National Sculptors' Guild.

'CERRITOS AIR DISASTER MEMORIAL', CERRITOS PUBLIC SCULPTURE GARDEN, CALIFORNIA
